PROJECT DOCUMENTATION

1. Project Overview:

Purpose: Student-friendly platform that includes exploring, browsing, and enrolling in courses.

Target users: students (and admins)

Main Features:

-Course browsing
-Dashboard
-Enrollment in courses
-Enrollment validation by admin
-Managing list of courses (admin)

2. Current Progress:

-Interactive app where (4/5) of main features have been accomplished:
   -Course browsing
   -Dashboard
   -Enrollment in courses
   -Managing list of courses (admin)

-Designed new wireframes for Landing page + All student view pages.

-Enroll Logic is completed apart from few bugs (so it needs to be fixed).

3. Pending Work:

-Backend integration.

-All pages to be re implemented following the new design.

-Validation system in the admin dashboard.
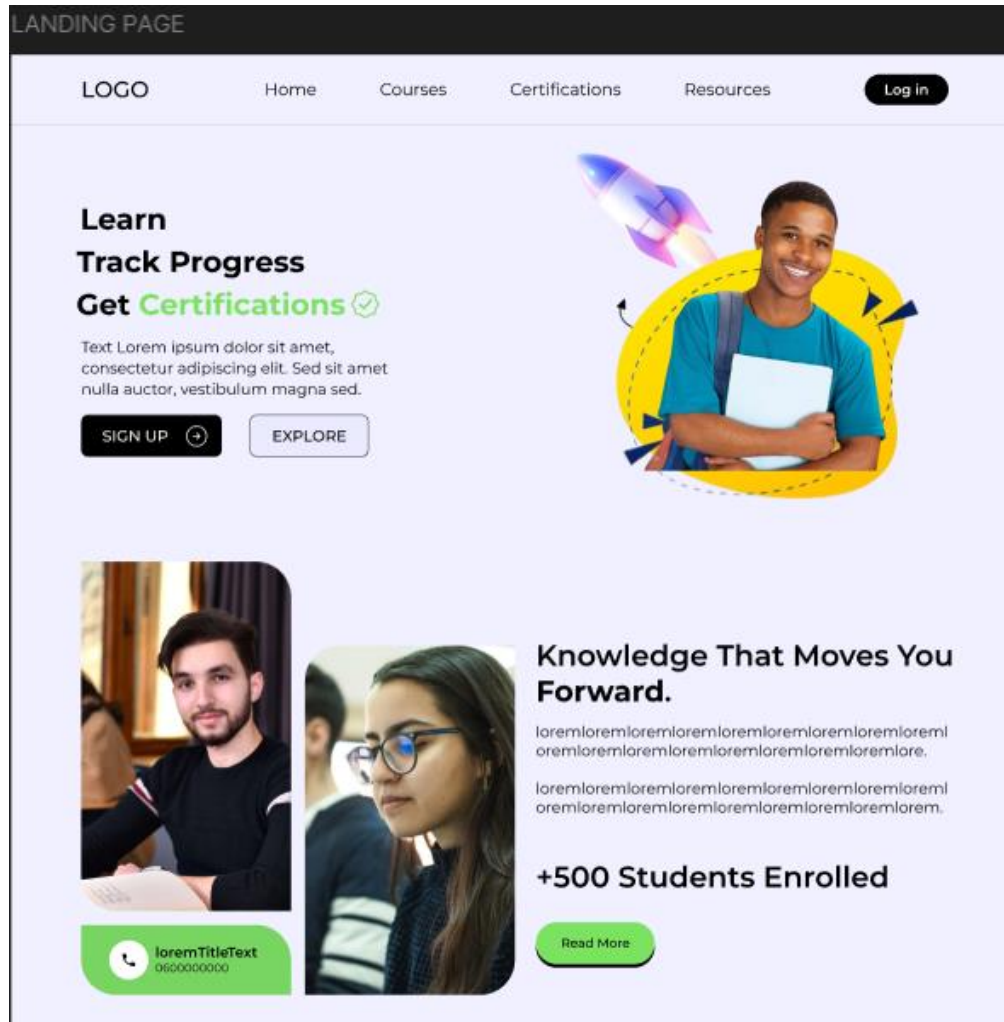

-Implementing login/authentication system.

4. Technologies (used so far):

-Figma, React, Tailwindcss.

-Github Link: https://github.com/mhamidi777/react-learning-platform

-Figma Link: https://www.figma.com/design/HqfSf3OgynJf09ZaJyBD7Z/LC-Platform?node-id=0-1&t=IVddp7gFte8AFrH6-1

5. New Design (to be Implemented):

Landing Page:
